## Profile

Front-End Developer with 8 years of experience and one year of experience as a Full-Stack Developer. I specialize in React, Next.js, and TypeScript. I create modern, responsive websites and web applications with a focus on aesthetics, performance, and scalability. I have hands-on experience with the Drupal 8/9/10 CMS (Twig) as well as a backend based on Nest.js and Prisma.

## Employment

### Full-Stack developer

May 2021 - Present

WEB DEVELOPMENT OLEKSII KOBA, Gdansk

- **Development and maintenance of web applications** based on **Next.js**, **React** (using **React Hooks**), and **TypeScript** – styled with **Tailwind CSS**, **React Bootstrap**, and **SCSS**.
- **Form data validation** – using **React Hook Form** and **Zod** (validation schemas).
- **Multilingual support** – implementation of localization and translations using the **next-intl** library.
- **Back-end in NestJS** – building APIs using **Mongoose** (MongoDB) or **Prisma ORM** (PostgreSQL), depending on the project.
- **Data structure design** – creating **DTOs**, validating data, handling **CRUD operations**.
- **Modeling and integrating data with PostgreSQL** – using **Prisma ORM**, with attention to **relations** and **query optimization**.
- **Application deployment** – on platforms like **Vercel** and **Heroku**, handling media files via **AWS S3**.
- **API testing and debugging** – using **Postman**.

### Full-Stack Developer

Feb 2024 - Apr 2025

TERMA Sp. z o.o., Gdansk

- **Creating and developing corporate websites** from scratch based on **Drupal CMS (versions 8–10)** – system configuration, theme and module development, core updates, integration with external systems, performance optimization, and mobile responsiveness (RWD).
- **Developing web applications** using **React**, **NestJS**, and **TypeScript** – building components, form validation (**React Hook Form**, **Zod**), API integration, and styling with the Bootstrap framework.
- **Maintenance and optimization of a multilingual website** built with **Vue.js 2** – implementation of **Vue Router**, **Vue-i18n** (multi-language support), styling with **Bootstrap-Vue** and **SASS**.
- **Performance and SEO** – websites optimized for speed and search engine visibility: image compression, WebP format, metadata, sitemap, Google PageSpeed testing.
- **International collaboration** – delivering projects for markets in

I hereby consent to the processing of my personal data for the purposes of the recruitment process in accordance with the General Data Protection Regulation (GDPR).
